DETAILED ACTION

Response to Amendment

The objection to claim 23 is moot in view of applicants' amendment.

The rejection of claims 2-5, 23, and 27-28 under 35 U.S.C. 103(a) as being unpatentable over Fernyhough et al, 5,700,417 in view of Olesen et al, 4,956,039 is withdrawn in view of applicants' amendments.

The rejection of claims 1-6 and 23-29 under 35 U.S.C. 103(a) as being unpatentable over Levy et al, 4,479,984 in view of Fernyhough et al, 5,700,417 is withdrawn in view of applicants' amendments.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-6, 23-28, and 30-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. More specifically, the term "reinforcement assembly" in the amended claims is not described in the specification as originally filed.

Claim Rejections - 35 USC § 103

Art Unit: 1774

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1-6, 23-28, and 30-32 are rejected under 35 U.S.C. 103(a) as being unpatentable over Levy et al, 4,479,984 (Levy) in view of Fernyhough et al, 5,700,417 (Fernyhough), for reasons of record, further in view of Bringuier, 6,249,629 B1.

Levy and Fernyhough are as applied previously but do not specifically teach the addition of an upjacket surrounding their fiber reinforced rods. Bringuier teaches fiber optic cables comprising a strength member formed from glass or fiber reinforced material, upjacketed with a layer of plastic that can be a medium density PE material. See Figure 2 and column 3, lines 63-67. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the combined teachings of Levy and Fernyhough by including an upjacket surrounding the fiber reinforced rod, whereby said upjacketed reinforced rod can serve as a spacer in accommodating other components in an optical fiber cable. As to new claims 30-32, Fernyhough teaches that the outer coating layer can include polybutylene terephthalate, polyether glycol copolymer, or ethylene acrylic acid copolymer. See column 3, lines 21-22 and 45-46, and column 5, lines 17-18.

Therefore, the combined teachings of Levy, Fernyhough and Bringuier would have rendered obvious the invention as claimed in present claims 1-6, 23-28, and 30-32.

Response to Arguments

Art Unit: 1774

5. Applicant's arguments with respect to claims 1-6 and 23-29 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
